## GRADE -7

Number **seven (7)** is one of the most favorite and significant number across religions and cultures. In Hinduism, **seven** is recognized as a spiritual and sacred number. Known as Saptha (also spelled as Sapta) in Sanskrit, number **seven** is a symbolic representation of various divine concepts and philosophies of Hindu Sanatana dharma and Sanskruthi. There are **seven** days of the week, **seven** colours of the rainbow, **seven** notes on a musical scale, **seven** seas, **seven** wonders and **seven** continents.

Snow White ran off to live with **seven** dwarves, there were **seven** brides for **seven** brothers, Shakespeare described the **seven** ages of man, Sinbad the Sailor had **seven** voyages as well. And above all, when Ian Fleming was looking for a code for James Bond, he didn't go for 006 or 008. Only **007** had the right ring.
